THE NEW DIRECTORY.

The 1900 issue of Richmond's Alexandria Directory, which is now being delivered to subscribers, shows the same careful work subscribers, shows the same careful work which the publishers have maintained since their first edition, five years ago. The directory has been so well received by its patrons that it has become an annual publication, and Alexandria now has a directory as often as any city in the country. While errors will creep in, no matter how much care is taken, it will be noticed that they have been reduced to a minimum. Eichmond & Co estimate the population of Alexandria to be 18,620.

### TO-MORROW, FRIDAY. REMNANT DAY Our Special Bargain Day.

Our stock of merchandise is absolutely fresh bright, and up to date in every particular. And it is kept so by reserving each week one day-Fritay-on which every de-partment is compelled to mark down and sell its remusats-edds and ends, short lengths, broken assortments, anything soiled or shopwern, which may have accumulated during the week, and to mark them down to such prices as will make the quickest possible clearance. With the usual run of remusnus we also offer for bargain day certain lots of goods, such as lagging styles, top-heavy stacks, to-be-discontinued lines and kindred sorts, at particularly inviting prices to close them out quickly. A number of such things for tomorrow and attention is called to the various Special Bargain Tables, which will be of more

importance than usual. As the season advances it becomes impos sible for us to keep upsizes on many styles of ready-made garments, consequently the respective lines are reduced to one or two garments of a style. Similar conditions exist in all departments. And from these several sources come great secumulations of remnants-odds and ends, short lengths, &c. These clog the stock and impede business to a very material extent. So we ask for customers on Friday, to take the single garments, odds and ends, &c , at reduced prices, in order that we may at all times have absolutely complete and perfect stocks to offer at the beginning of each

Tomorrow will be one of the most interestog rempant days of the present season. We have thoroughly ransacked the several stocks and separated ther from everything that savors of a remnant. Many an odd bit of silk, ribbon, velvet, &c., may be found which can be made use of. Number of odd pieces in China, Bric-a-Brac, Cut Glass, &c. Scoras of useful lengths in Dress Goods-ends of the choicest fabrics—suitable for Women's Dresses Skirts, Waists, and Children's Dresses, at half and less than half former prices. Wrap, Suit, Linen. Upholstery-in fact, every department in the house presents rare bargain opportunities. Remnants of every sort and kind are marked at prices that should make a complete clearance of them by closing hour to

With the remnants we offer several lots of oods, purchased for the occasion, at prices which make them rare bargains.

Unique Way of Identification. The Saunterer happened to be in prominent bank, where he saw an iden-
